HOROSCOPE.

Saturday, April 7, 1917.

According to astrology the bad influences outweigh the good today. While Mercury is in benefic aspect, Venus and the Sun are strongly adverse.

It is a day most promising to editors, making for an increased interest in the news and added respect for published opinion.

Advertising is well directed and again the prophecy that it will be used in new ways is made.

Taxation that will meet with extraordinary approval from all classes is foreshadowed. This will have a novel aspect or will appeal to public sentiment.

An airship will be hailed as a hero. This is not an encouraging away for women, who may be thwarted in a public movement of some sort, probably in a peace move.

Schools and colleges come under a direction that promises for commencement time changed conditions which will affect seats of learning.

Theatrical affairs continue under a planetary direction that is most encouraging. Changes among managers again are foretold and success for women is indicated.

The Kaiser continues under a sinister government of the planets pressing bodily suffering during the next few weeks, which will be menacing to the health of all the rulers.

Growth of brotherly love and a unifying of many divergent opinions are likely to be the signs of the coming of a new era, which will be recognized before the end of the summer.

There is a sign read as ominous for the stability of financial affairs.

Stock-raisers have the promise of remarkable prosperity in the coming months. The West will benefit greatly.

Persons whose birthdate it is should be exceedingly cautious during the coming year. Business affairs may be very unsatisfactory.

Children born on this day may be too speculative in business. These subjects of Aries usually have strong intellects and stubborn wills. Mars is their principal ruling planet.

Argentina to Prohibit
Exportation of Linseed

Buenos Ayres, April 6.—It was learned today that the President is expected to sign within a few days a decree which would prohibit exportation of linseed from the Argentine.

This action would be in keeping with the recent prohibition of exports of wheat and flour.

Argentina's policy is to protect the local consumer against a shortage which would increase prices.

It was stated today that there are only 72,000 tons of linseed in the country and that 75,000 tons were necessary to plant the next crop.

MISS SPRINGTIME
PERTINENT PARAGRAPH 6--Continued Tomorrow.
"YOU'LL DO YOURSELF AN INJUSTICE IF YOU MISS IT!"

That is what the New York Tribune said in its glowing eulogy of Klaw & Erlanger's joyous musical comedy success, "MISS SPRINGTIME," music by Joseph Urban. It fascinates, thrills, entrances, and reflects all the joys of life's best season. With its sprightly words of melody and laughter it brings, like its delightful namesake, golden sunshine and soft, caressing breezes.

The great production comes to the National for just one week direct and intact from its record-breaking run of 30 consecutive performances at the New Amsterdam Theater, New York, where it has broken records, properties, effects, etc., to the most minute detail—orchestra and metronome—rest absolute, complete, with Mrs. MacFarlane, Miss Adler, John E. Hazard, Georgia O'Flaherty, Josie Intropoli, Chas. Meakin, Ted Denny, Ada May, Fred New, Wayne Nunn, Nick Burnham, Maurice Gray, Percy Woodley, and 50 other comedians, singers, and dancers of note.

Shall We Go It Alone
Or Join the Democracy of Europe
In Fighting Germany?

Shall we send an over-seas army to join the Entente Allies? Is it best for our Navy to co-operate in destroying German submarines? Will unlimited financial assistance to the Allies prove most effective? Or, shall we wage war with Germany independently of her other antagonists?

On these questions editorial opinion throughout the United States is sharply, tho far from evenly, divided, most of our press seeing in the European war a conflict of principles, a struggle between absolutism and democracy, declaring that the United States should cast its lot with the Allies on the firing line of democracy. The "go-it-alone" side of the argument is concisely stated by the Leavenworth Times: "This is an affair of our own with Germany. To be sure, the fact that Germany is having trouble with us probably will be of material assistance to the Entente Allies, but in their fight with Germany we still are neutral."

The leading article in THE LITERARY DIGEST for this week (the issue dated April 7th) presents the consensus of editorial opinion throughout the country on the steps that should be taken in the present situation. All view-points are given.

Perspective the Only Key to Perfect Understanding

There is an old proverb to the effect that the on-looker sees most of the game. The player's conception of it as a whole, that is as removed from his individual effort or experience, is bound to be blurred and clouded by the dust and noise of the struggle. The observer notes the movements of all the players, grasps the massed combinations, and surveys the ebb and flow of the contest with cool understanding. The reader of THE LITERARY DIGEST has the benefit of such observation.

He has summarized for him weekly an impartial review of what is being thought, said, and done on all sides of the great questions that are absorbing the interest of the world, and he gets the inestimable advantage of perspective. THE DIGEST takes no sides, keeps out of the struggle of politics, social disputes, trade rivalries, and the rest, and records all view-points. Begin reading it at once if you really wish to understand the great game of life as it is being played today.
